- Hindi(Basic)

PROFILE

Motivated and enthusiastic Computer Science Engineering student specializing in Artificial Intelligence and Machine Learning. Currently in my 2nd year at Jain University, I'm passionate about building real-world solutions using AI, Python, and emerging technologies.
I've completed a Developer & Technology Job Simulation with Accenture and am actively learning GitHub, Python programming, and chatbot development to grow my skills and contribute to exciting projects.

PROJECTS

Project Centric Learning • Home automation

Currently working on a project that automate our day to day home appliance mainly targeting Disabled peoples needs

Chatbot
Created a basic level chatbot that do basic level of interactions.To understand the basics of coding

Accenture Developer
- Completed a virtual internship simulating tasks from Accenture's software engineering team.
- Gained exposure to real-world development lifecycle: analyzing client requirements, prototyping, and delivering software solutions.
